Wildfire Risk in Park County & Request for Research Identifying Wildfire Costs Who Pays for these Costs & What does this Mean?

Wildfire Risk in Park County & Request for Research Identifying Wildfire Costs Who Pays for these Costs & What does this Mean?

Geographic Overview

- Adjacent to Yellowstone National Park
- High scenic amenities and recreational opportunities
- Vast public lands (53% of landownership)

Socioeconomic Context

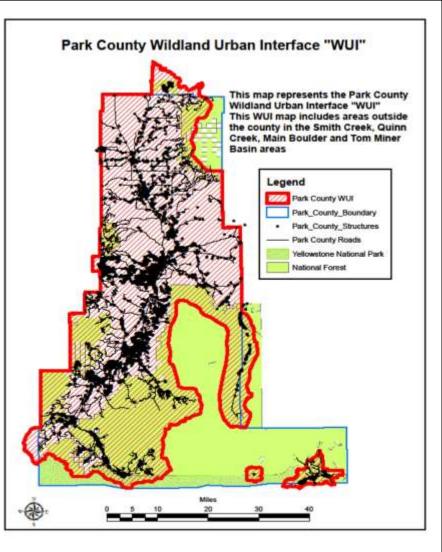

- Diversified economy driven by service-related industries (lodging, food, real estate, etc.)
- Non-labor income (ex: retirement & investments) has increased 357% since 1970

Recent Trends

- 56% of homes in the WUI are second homes (national average is 15%)
- 97% of the WUI is undeveloped, suggesting areas of future growth

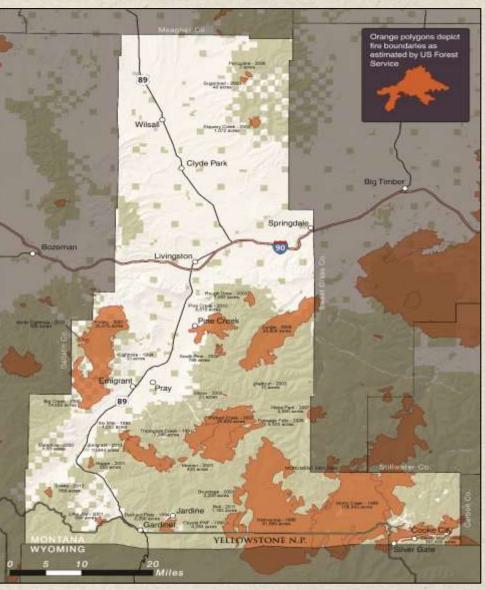

Wildfire Risk

- 1988 Yellowstone Fires
- 2006-07 Fires
- Limited Emergency Services

How to Address this Risk

- Fire Adaptive Communities
- Land Use Planning Tools
- Local/State Coordination

-

PARK COUNTY GROWTH POLICY

PREPARED FOR: park county board of county commissioners effective may 1, 2017 park county, montana

Need for data and science to inform dialogue on wildfire risk...

What are the full community costs of wildfire?

• Who pays for these costs?

Wildfire Risk in Park County & Request for Research Identifying Wildfire Costs Who Pays for these Costs & What does this Mean?

Often, suppression activities are the only costs reported on...

but that's not the full story.

Fire	# of Acres Burned	Total Cost
Hayman Fire (2002)	137,759	\$230 million
Grand Prix Fires (2003)	125,000	\$1.28 billion
Schultz Fire (2010)	15,000	\$139 million
Rim Fire (2013)	257,314	\$1.3 billion
Loma Fire (2016)	4,474	\$34.5 million

Suppression costs comprise less than 10% of overall wildfire budget Suppression Federal 7.5% Local 1.2%

Other Expenses & Damages (91.3%)

The other 90% involve short-term expenses

Suppression Federal 7.5% Local 1.2%

Aid Relief 1.7%

Home & Property
 Loss 21%

Immediate Mitigation 3%

and long-term damages

Human Casualties 0.8%
